

VLADIMIR LAZAREVIĆ

FULLSTACK WEB DEVELOPER

I am a second year student at the Faculty of Organizational Sciences in Belgrade. Currently I am working on fullstack web programming on independent and collaborative projects. What I love the most about IT is that learning never stops and you can always expand your knowledge. Besides IT, I especially love playing piano and basketball.

EXPERIENCE

FONIS - IT organization | Oct 2020 - present

IT COORDINATOR | Companies To Students 2022

- Managed a team of 9 people.
- Built the main site of the project and an internal one which HR and Logistics needed in order to carry out their tasks more easily.
- Used technologies were React, NodeJS, Sass and Framer motion.

COMPETITOR | FON Hackathon 2022

- Participated in a team of 4 as a frontend developer.
- Topic: raising environmental awareness.
- We built a special kind of social network. For the realization we used technologies like React, Redux, Laravel and MySQL.

IT TEAM MEMBER | Hackathon for high school students 2021

- Worked in a team of 5 on the main site of the project. We used React with the help of Sass and Framer motion.

LECTURER | Students To Students 2021

- Gave a lecture to 20 people about React with a colleague from university.
- Students were successfully introduced to the basic concepts of React which helped them to work on independent projects.

Quantox Technologies | Oct 2020 - Jul 2021

FRONTEND WEB DEVELOPER | Apr 2021 - Jul 2021

- Creating and modifying sites for clients according to their requirements.
- Worked with HTML5, CSS3, JavaScript and Shopify.

INTERNSHIP | Oct 2020 - Apr 2021

- Worked on small projects such as: real-time To-Do app for multiple team members, MoviePicker app and Chatter app.
- Practiced creating sites on the model of existing ones such as Quantox home page, Netflix, etc.
- Built Song guessing web application with my friends.
